

CS03 Management and Supervision of Work in Confined Spaces

Course duration: 3 days

Course overview

Incorporating the CS02 course as the first two days, this course gives the candidates the ability to competently manage and supervise all work in confined spaces. Also includes modules on accurately risk assessing work in confined spaces in line with the Confined Space Regulations 1997.

Who should attend?

This qualification is suitable for supervisors and managers who need a full entry qualification, alongside the ability to manage projects that involve confined space environments. It is equally suitable for persons who undertake a lot of work in confined spaces and require a fuller understanding of all the factors involved in confined space working.

Course Content

The course gives candidates knowledge and competence in the following areas in addition to the CS02 course:

- Applying Water UK Policy for Work in Confined Spaces, including the hierarchy of hazard control and employer duties
- Undertaking the Risk Assessment of work in confined spaces
- Working with Permits to Work
- Developing Safe Systems of Work
- Selecting, installing and maintaining control measures, including hygiene procedures
- Creation, implementation and maintenance of rescue plans and emergency procedures
- Record and Documents control relating to confined space working

Training Delivery Methods

Combining a perfect balance between theoretical and practical learning, a variety of teaching methods are used to ensure that candidates successfully complete the course, with the knowledge required to work safely.

All our instructors are fully qualified as assessors, and are trained first aiders, giving the assurance your staff are in safe hands. Professional delivery methods, coupled with expert industry knowledge guarantee that learning outcomes are met.

Qualification

- Qualifies candidates to enter 'Medium and High Risk' confined space environments with compressed air escape breathing apparatus or working breathing apparatus as appropriate, and associated equipment
- Additionally qualifies candidates to manage work in confined spaces, including formulation of Risk Assessments and Safe Systems of Work
- Breathe Safety Accredited
- Certification and ID card
- Valid for 3 years

Possible further learning

The following courses are recommended for further learning:

- CS04 – Advanced Technical Rescue from Confined Spaces

Or consider upgrading to a City and Guilds Qualification
