

CS05 Tunnel Entry and Associated Emergency Procedures

Course duration: 1 day

Course overview

Forming a specific tunnel entry confined space course at Breathe Safety, the CS05 provides candidates with a solid knowledge of confined space working on which to build. Based on the BS6164 ACOP for Tunnelling Operations and the Confined Spaces Regulations 1997, this course focuses on entry into confined spaces using escape re-breathers as part of a planned self-rescue procedure.

Who should attend?

This qualification is suitable for operatives and supervisors alike and covers the fundamental principles of confined space work in tunnel environments. Although primarily aimed operatives it is a necessary foundation for all persons looking to progress their understanding of confined space entry.

Course Content

The course gives candidates knowledge and competence in the following areas:

- Understanding of the Confined Space Regulations 1997 and BS6164 ACOP for Tunnelling Operations
- Understanding the hazards and risks associated with confined space
- How to identify and control such risks
- Safe use and interpretation of gas monitoring equipment
- Safe use and pre-use inspection of entry equipment – tripod, winch, fall arrest mechanisms, harnesses and safety lines
- Safe use of re-breathers as self-rescue equipment
- Working to a safe system of work

If you require assistance with choosing a suitable course or more information please do not hesitate to contact us:

- Reacting safely and effectively in an emergency situation

Training Delivery Methods

Combining a perfect balance between theoretical and practical learning, a variety of teaching methods are used to ensure that candidates successfully complete the course, with the knowledge required to work safely.

All our instructors are fully qualified as assessors, and are trained first aider's, giving the assurance your staff are in safe hands. Professional delivery methods, coupled with expert industry knowledge guarantee that learning outcomes are met.

Qualification

- Qualifies candidates to enter confined space environments with escape re-breather and associated equipment
- Breathe Safety Accredited
- Certification and ID card
- Valid for 3 years

Possible further learning

The following courses are recommended for further learning:

- CS02 – Confined Space Entry with Working Breathing Apparatus
- CS03 – Management and Supervision of Work in Confined Spaces
- CS04 – Advanced Technical Rescue from Confined Spaces

Or consider upgrading to a City and Guilds Qualification
